

ARTISAN II CHAIR

Model: 528

Series: Artisan II

The Artisan II Chair has a unique round steel tube frame and wood back panel. The soft angles of the chair frame are not only aesthetically pleasing, but were designed to protect walls and table tops from damage by eliminating the sharp corners that can leave dings and dents when chairs are pushed in too forcefully. This chair looks great and holds up to use (and sometimes abuse) in heavy traffic applications. Choose from one of our standard back designs or customize your chair with an engraving or cut-out.

- 1.25" Round steel tube frame
- Wood seats made of 1" saddled ply
- Upholstered variations feature 2" of high resilience foam
- Five standard back designs available
- Premium nylon glides
